

Manuscript checklist

Manuscript number. 2013-07-08948B
 Author name Hemani
 Article type Letter

The following checklist is intended to aid the publication of your manuscript. Please read through the list carefully and amend your manuscript as appropriate. To avoid delays in the production process, please complete and return this sheet with the final version of your manuscript.

TEXT

Nature will edit text to conform to house style and for clarity and accessibility. Please check the following points when preparing the final version of your manuscript.

Letters to *Nature*

- ☒ Title no longer than 90 characters (including spaces)
- ☒ First paragraph referenced and no longer than 300 words
- ☒ No subheadings in main text
- ☒ Methods Summary for print no longer than 300 words
- ☒ Online-only Methods provided as part of the main text file?
- ☒ No more than 30 references

Articles

- ☐ Title no longer than 75 characters (including spaces)
- ☐ First paragraph unreferenced and no longer than 150 words
- ☐ No more than 6 main subheadings of up to 40 characters (including spaces)
- ☐ Methods Summary for print no longer than 300 words
- ☐ Online-only Methods provided as part of the main text file?
- ☐ No more than 50 references

All manuscripts (if applicable)

- ☒ Abbreviations and symbols defined on first use
- ☒ Italic font used for variables, genes and non-English languages; bold font for vectors
- ☐ Equations and special characters in Word in 'normal text' or Symbol font (Word Equation Editor avoided where possible)
- ☒ Brief title provided for each figure, table and box
- ☒ Figure legends no more than 100 words each (300 words each for contributions without methods sections)
- ☐ Legends for Extended Data Figures included in the main text file after the online-only Methods
- ☒ Author contribution statement included (a statement of responsibility that specifies the contribution of every author; see http://www.nature.com/authors/editorial_policies/authorship.html)
- ☒ Declaration and listing of any competing interests included in manuscript in the Author Information section (http://www.nature.com/authors/editorial_policies/competing.html)
- ☒ Database accession numbers included for sequences determined
- ☐ Structure data in *Nature* standard tables

FOR TEX USERS

Word or rtf formats are preferred. Such formats enable on-screen subediting and the preparation of a 'pre-proof', when the editing can be checked before formal proofs are prepared. If you have prepared your paper using TeX/LaTeX, please convert to PDF format and upload the PDF file only at submission.

- ☒ Word conversion not practicable; PDF uploaded instead

Contact our subeditors at authors@nature.com for further help and advice on preparing text for publication.

ARTWORK — PRINT-ONLY FIGURES

Nature will edit figures to conform to house style and for clear reproduction in print. Standard figure sizes are 89 mm wide (single column) and 183 mm wide (double column); figures can also be a column-and-a-half width where necessary (120–136 mm). Please check the following points when preparing your figures.

Electronic figure formats

- ☒ Preferred file formats for line (or vector) artwork and graphs are unflattened EPS, postscript, PDF and Illustrator (AI) files
- ☒ Preferred file formats for photographic images are TIFF and Photoshop (minimum resolution 300 dpi). If you have created images with separate components on different layers, please send us the Photoshop file (.psd) with the layers intact
- ☒ For detailed guidelines and a full list of acceptable electronic formats, see http://www.nature.com/nature/authors/gta/3c_Final_artwork.pdf

When preparing and sending figures

- ☒ Text in an editable format and in sans serif font (Helvetica, Arial)
- ☒ Text and lines clearly visible when figure is sized for page: type size 6–8 point; lines preferably 0.5 point (0.18 mm)
- ☒ Colour images in CMYK (not RGB) mode; ensure you are happy with the conversion from RGB to CMYK before submission
- ☐ Suggestions for cover artwork submitted, if desired
- ☐ For reviews/Insight articles, permission obtained for any republished or redrawn illustrations

Email our art editors at art@nature.com for further help and advice.

ARTWORK — EXTENDED DATA DISPLAY ITEMS

- ☐ *Nature* does not edit these figures. Please ensure that you have followed our guidelines as closely as possible before submission. All Extended Data files supplied as 300 ppi images, saved as JPEG (preferred), TIFF or EPS file formats only, with colour images in RGB (not CMYK) mode, and with each display item not more than 10 MB. See http://www.nature.com/nature/authors/gta/3h_Extended_data.pdf for detailed guidelines.

SUPPLEMENTARY INFORMATION

Nature does not edit online-only material. Please check the following points when preparing Supplementary Information:

- ☐ Discrete items of the Supplementary Information (for example, videos) referred to at an appropriate point in the printed text
- ☐ Separate text file ('SI Guide') provided with a brief description (file format and content, video legends) of each item
- ☒ We recommend that all Supplementary Information is supplied as a single PDF file, where possible.
- ☒ File size within the permitted limits for Supplementary Information.

See <http://www.nature.com/nature/authors/submissions/final/supinfo.html> for advice on preparing Supplementary Information.

E-mail authors@nature.com if you have additional queries.
